

North Carolina Home Base Data and Reporting in Schoolnet Aggregate Level Performance by Teacher

Primary Audience: School and District leaders wanting to access aggregate level performance data by teacher.

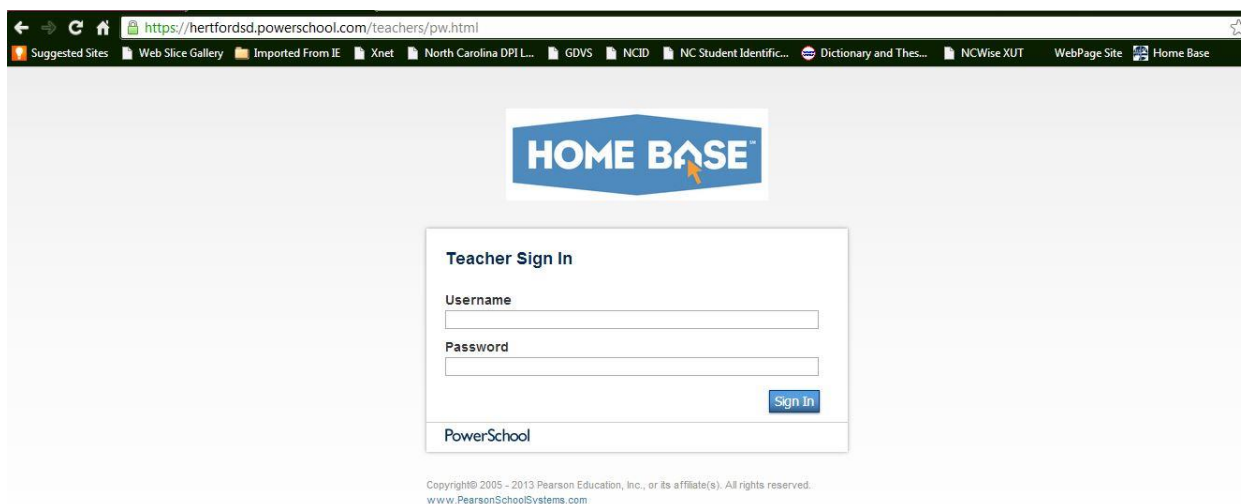

Purpose of Document: To provide a guide for school and district leaders on how to find and use aggregate level data by teachers within the reporting functions of Schoolnet.

Roles Required: A user will need the role of Leadership or the role of Staff with the added role of “Access to Report Manager.”

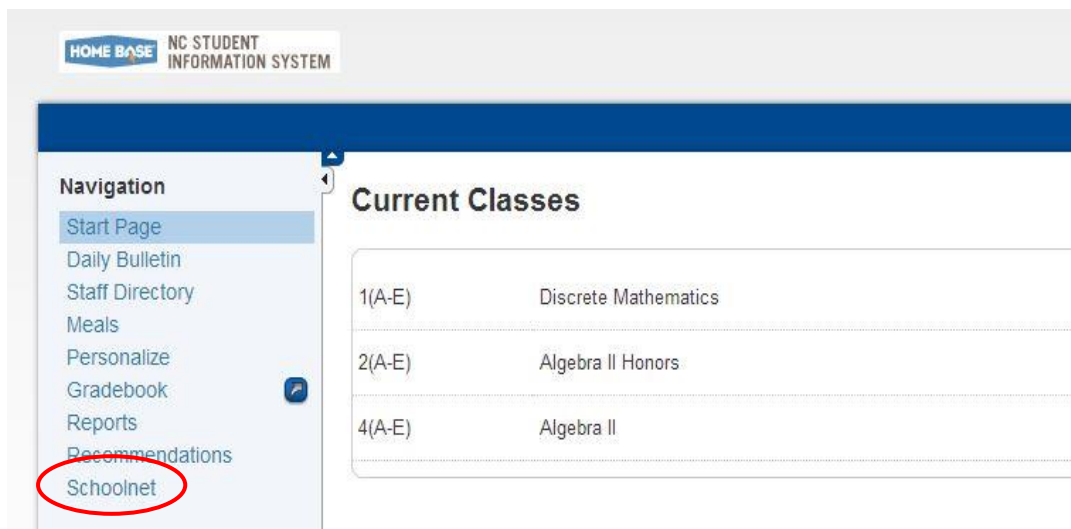

You can find more information about the roles and permissions at <http://www.ncpublicschools.org/homebase/getting-ready/implementation/category?category=User%20Roles%20and%20Access>. Please work with your district data manager to make sure that you have the appropriate roles.

Log into Home Base

The Home Base URL is specific to your district.

Sign into Home Base and access Schoolnet through PowerSchool.

Current as of March 2015

North Carolina Home Base Data and Reporting in Schoolnet Aggregate Level Performance by Teacher

Hover over the School & District Data to choose Custom Reports

The screenshot shows the North Carolina Home Base interface. At the top, there is a navigation bar with the 'HOME BASE' logo, 'NC INSTRUCTIONAL IMPROVEMENT SYSTEM' text, and a search box labeled 'Find a Student' with a 'Go' button. Below the navigation bar, there are three main menu items: 'School & District Data' (Reports & Indicators), 'Classrooms' (Rosters, Reports, Planners), and 'Assessment Admin' (Create & Monitor). The 'School & District Data' menu is expanded, showing a sub-menu with 'Dashboard', 'Report Bank', 'Report Builder', 'Pre-Formatted Reports', and 'Custom Reports'. The 'Custom Reports' option is circled in red. To the right of the 'Report Builder' menu, there is a 'My Reports' section with 'Saved Reports'.

Start Building your Custom Report

To build a custom report, you have to first define your student set. You can build the report with All Students, with a Saved Student Set, or you can define a new student set before you begin.

Custom Reports

Start building your Custom Report or Analysis Spreadsheet

- • **Define Student Set**
Create a Student Set to use in your custom report.
- • **Build a Custom Report With All Students**
Build your custom report with all available students.
- • **Choose a Saved Student Set**
Build your custom report with a Saved Student Set
- **Course / Section Lists**
Find courses and sections. Run reports on the students enrolled in those courses and sections

North Carolina Home Base Data and Reporting in Schoolnet Aggregate Level Performance by Teacher

After you have a student set, you will choose the type of report from the options on the left hand side of the screen. For this report, choose Benchmark Performance by Standard.

Select the Type of Analysis Report [Go to Viewing Options](#)

Standardized Test
Benchmark Performance by Standard
Benchmark Performance by Subject
Benchmark Item
Grade/Mark
School Enrollment
Program Enrollment
Section Enrollment
Attendance & Discipline Totals
Number of Attendance Events
Dates of Attendance Events
Number of Disciplinary Infractions

1. Select when, where and in which grade students are enrolled.

School Year

School Type

School

Grade

2. Narrow your set according to the benchmark test(s) taken and the performance level.

Subject

Fill in the parameters for sections 1-3 on the "Select Report Type and Data" screen based on what you are trying to get in this particular report.

For #1 – Select when, where and in which grade students are enrolled.

1. Select when, where and in which grade students are enrolled.

School Year

District

School Type

School

Grade

Select all that apply using the drop down options:

- School Year
- District
- School Type
- School
- Grade

If you want to include all of the schools in your district, you can leave the options open for Any School Type and Any School.

Test Instance

Topic ←

Subtopic ←

Standard Mastery 100 - 90 89 - 80 79 - 70 69 - 60
 59 - below

Select all that apply using the drop down menu:

- Subject
- Test Focus
- Test Standard Set
- Test Categories
- Test Level
- Test Instance

(To look at more than one test in a report, leave the Test Instance set to Any Benchmark Administration.)

*Topic must be set to Any Topic.
*Subtopic must be set to Any Subtopic.

KEY POINT: Any Topic and Any Subtopic must be selected. This allows the report to show granular standards information.

For #3 – Narrow your set by section where student took the test.

3. Narrow your set by section where student took the test.

Department

Course

Teacher

Section

Since this is a district level report, you will probably want to leave Department, Course, Teacher, and Section open to Any.

But as necessary, use the options to narrow the scope of your report.

Clicking on the blue hyperlinked numbers will show individual section and student information

***Note: 0% does not mean that no students in the class answered correctly. It could indicate that no students assigned to the teacher were given the assessment.**

Users can create a PDF of the report or export to Excel.

North Carolina Home Base Data and Reporting in Schoolnet Aggregate Level Performance by Teacher

Note: This document describes a specific report for a district level aggregate performance by teacher. You can choose other options based on what you are trying to accomplish with this same type of report. For example you could narrow to a specific school, subject, and/or test to adjust the results displayed to meet your specific needs. These options are in 1-3 on the Select Report Type and Data screen as show above on pages 3 and 4.

On the View Options screen (page 5 above), you can aslo change the view using any of the options provided: Table, Pie Chart, Vertical Bar Graph, Vertical Stacked Bar Graph, Line Graph, Horizontal Bar Graph, or Horizontal Stacked Bar Graph
